Innovation of the Year

Innovation of the Year

Every year the League honors outstanding innovations which have been recognized by member institutions as Innovations of the Year. These innovations represent capstone achievements and the continuing renewal of the spirit of innovation and experimentation upon which the League was founded.

Which innovation will join the list of previous EMCC Innovation of the Year winners?

If your proposal is selected as the District Innovation of the Year, you and/or your team could win the Dr. Paul M. Pair Innovation of the Year Award, which includes \$2,000 to be used to further the winning innovation.

The deadline for EMCC submittals for the 2011/2012 Innovation of the Year will be posted soon.

Please submit your innovation via email to our EMCC Innovation of the Year Liaison, Brachelle Broom at brachelle.broom@estrellamountain.edu. Innovations will be reviewed by a EMCC peer committee per the following criteria.

Quality: It is evident that the innovation increases "quality" in the course, program, office, or institution.

Efficiency: There is evidence that the innovation contributes to a more efficient way of doing things.

Cost Effectiveness: There is evidence that the innovation adds a value to the institution while at the same time containing or reducing costs.

Replication: The innovation selected can be replicated in other institutions with a minimum of difficulty.

Creativity: The innovation should be as original as possible or the adaptation should be creative.

Timeliness: The innovation should not be more than five years old in the institution, but it must have been around long enough to be tested so that it meets most of the criteria.

Learning: The results of the innovation have been shared with others for the benefit of students throughout Maricopa.

Collaboration: The innovation successfully demonstrates collaboration, teamwork, and cooperation to ensure continuous process improvement efforts on behalf of students throughout Maricopa.

Under downloads is last years winner of Innovation of Year nomination form.
