## Welcome

Welcome to the home page for the **Maricopa Community Colleges District (MCCD) Faculty Association**. As the cost of attending traditional, four-year colleges and universities continues to rise, more and more students are discovering the advantages of attending community college. On the campuses of the MCCD, they find there are numerous selling points to a community college education. In addition to significantly lower tuitions, they find favorable teacher-student ratios and a diverse student population, composed of young people alongside retirees and other adults returning to the classroom.

With that increasing enrollment comes increasing pressure to make sure MCCD faculty keep abreast of current trends in education, constantly renewing their commitment to their students and the educational process.

There are more than 1,500 full-time faculty members at the ten colleges which make up the Maricopa County Community Colleges District, and eighty-percent of them are dues-paying members of the Faculty Association. We are here to represent them, to make sure their voices are heard not only in the classroom and the colleges, but in the state legislature and beyond.

The MCCD Faculty Association gives its members the tools they need to succeed, in and out of the classroom. If you are currently a member of the MCCD Faculty Association, welcome home. This site is designed for you, to help keep you abreast of the issues which affect you every day, in and out of the classroom. If you're a faculty member considering joining us, please peruse this site and learn more about us. We'd be honored to have you team up with us, as we work together to further the laudable goals epitomized by community colleges.

**Being an educator is not just a job – it's a calling, one we are proud to embrace.**

## ATTENTION FACULTY!
