- Vision, Mission and Values

DID YOU KNOW?

We put learning first by engaging learners in the process as full partners, assuming primary responsibility for their own learning.

The learning college concept is based on six principles.

MY LEARNING COLLEGE | An Employee Testimonial

"Being a part of the Estrella Mountain Learning College journey has really opened my eyes as to how I contribute to learning on campus. In my position I don't have daily contact with students so I didn't consider what I do as being important to a Learning College, but it really boils down to learning at every level. I work with faculty and staff across campus to help develop and implement programs to enhance the

students learning experience. I am the advisor for the M.E.Ch.A. student organization and work with my students to help them accomplish their goals. I am also the chairperson for Hispanic Heritage Month and along with my committee produce a month long event of educational programming for the entire campus. When I take a step back and look at what I do here at EMCC, I can see that every day I impact learners and make decisions based on what has the greatest influence on learning!" Elena M. Beltran, Title V

Coming late spring 2011!
